

## **Traffic Will be Rerouted During Construction of Jekyll Island Beach Village and Convention Center**

With construction beginning on the new Jekyll Island Beach Village and convention center, vehicles heading to the north end of the island will detour onto Riverview Drive, just past the Greeting Station.

Beginning Friday, November 12, Beachview Drive, north of the intersection of Ben Fortson Parkway will become closed for through traffic and remain closed for the duration of construction which is estimated at 14 months. Northbound traffic will detour by taking Riverview Drive to Stable Road, then onto Shell Road east to Beachview Drive.

The total distance of the detour is less than two miles and should be used by guests traveling to all north end hotels, Great Dunes Park and Blackbeard's Seafood Restaurant. Vehicles heading to the south end of the island can continue to use Beachview Drive south and will experience no road closures.

Please see below for a map of the new detour. To learn more about revitaliation on Jekyll Island visit, <http://www.jekyllisland.com/Revitalization.aspx>
