General Background and Project Information

1.1 Overview.

This Request for Proposal (“RFP”) is an invitation by the Jekyll Island State Park Authority, a public corporation and instrumentality of the State of Georgia, (the “JIA”) to qualified and experienced contractors to submit proposals for the construction of Four (4) pedestrian and bike bridges (the, “Project”) located within Jekyll Island’s new wildlife conservation corridor (the “Property”).

Information on the requested Project concept and the Property is provided in the Exhibits attached to this RFP, and which are incorporated herein for all purposes.

The goal of this RFP is to select a partner who will further the development of Jekyll Island’s newest conservation project. This Project offers the successful respondent a unique opportunity to leave a lasting impression on a true Jekyll Island treasure.

JIA will review and evaluate all responsive proposals submitted in a timely manner in accordance with this RFP, and, following evaluation, JIA personnel will make a preliminary recommendation to the JIA Board of Directors (the “Board”) for consideration and approval. Subject to and following Board approval, JIA personnel and the successful respondent will enter into a contract for the Project (the “Contract”) on JIA’s standard terms. The successful respondent will be required to coordinate construction and operational plans with JIA, including, JIA’s conservation department and other personnel to ensure the Project minimizes impact to the natural environment and is built to specification.

1.2 Background on Jekyll Island and the JIA.

- (a) Jekyll Island. Jekyll Island is a unique, state-owned barrier island that balances conserving and preserving natural, historic, and cultural resources with providing accessible, affordable recreation, vacation, and educational opportunities for the people of Georgia and beyond. Surrounded by picturesque marshes and breathtaking oceanfront, Jekyll Island is a peaceful coastal habitat. The barrier island contains one of the few remaining intact maritime forests on the Eastern seaboard. Originally inhabited by Native Americans, Jekyll Island was explored by the French and Spanish and first settled by the English. From early settlers to America’s social elite to today’s explorers, this special barrier island has captured imaginations for generations. Now a top ranked tourist destination, Jekyll Island hosts more than 3.5 million visitors annually.
- (b) Jekyll Island Authority. Recognizing that the natural beauty and vibrant history of Jekyll Island set it apart from any other coastal destination, the Governor and the Georgia General Assembly established Jekyll Island as a state park in 1947, entrusting its care and preservation to the Jekyll Island State Park Authority (often referred to simply as the “Jekyll Island Authority”) in 1950 through an act of the Georgia General Assembly. Since its inception, JIA has conserved Jekyll Island’s natural and historic resources, while ensuring it remains an inviting destination for residents and guests. Today, JIA is a self-supporting state entity responsible for the management and stewardship of Jekyll Island.
- (c) Wildlife Conservation Corridor. In 2022, the JIA approved a Golf Improvement Master Plan. Part of that plan included decommissioning 9 holes of the former Oleander course and creating a wildlife conservation corridor. Creation of the corridor has given JIA the unique opportunity to restore approximately 50 acres of land within the interior mid-island area of Jekyll Island. Once complete the wildlife conservation corridor will include a

network of trails and points of interest for visitors to explore. Part of that network will include the four bridge crossings which are the subject of this RFP.

1.3 Property Information. The Property and site for the Project are more particularly shown on Exhibit “B” attached hereto and incorporated herein for all purposes.

1.4 Jekyll Island Contract Structure. Upon award of the Project by the Board, JIA will enter into a contract for the services contemplated herein this RFP with the successful respondent on terms mutually agreeable to both parties and in accordance with this RFP and the successful proposal. All respondents should take note that JIA, as a public corporation and instrumentality of the State of Georgia, is bound by certain provisions of Georgia law regarding contracting with a state entity, including but not limited to, provisions regarding indemnity, liability, and insurance requirements. As part of the contracting process, JIA may require the following:

- (a) **Guaranty.** JIA may require one or more principals of the successful Respondent, or third parties of sufficient means and creditworthiness, to guarantee the full, faithful, and prompt performance of all obligations under the Contract. Respondent should consider this contingency in its proposal.
- (b) **Background Checks and References.** JIA may conduct a background and reference check, including a credit check, on the successful Respondent and any principals or key employees with significant managerial or operational roles, prior to executing the Contract. Respondents should be prepared to provide authorization for background checks, character references, and financial references (e.g., from institutional lenders) upon request.
- (c) **Business Authorizations.** The successful Respondent must meet all legal requirements to do business in and contract with the State of Georgia prior to JIA executing the Contract, including, without limitation, participation in verification of lawful presence verification (i.e., E-Verify), workers’ compensation insurance programs, Drug-Free Workplace requirements, and other requirements for contracting with state entities. The successful Respondent must be able to obtain all required permits or licenses, if any, to satisfactorily discharge its obligations under the Contract.
